

Model Two™

AM/FM Stereo Radio

Stereo in its purest form.

The two-piece Model Two does stereo right...and left. Placing the matching stereo speaker, with its 15' of cord, several feet from the main unit, provides the detailed imaging and accurate soundstage that is so essential for true stereo reproduction. We consider the Model Two to be one of the finest stereo radios available, but don't take our word for it. Stereophile magazine said, "the Model Two is a fun piece of gear, and the left and right speakers in separate cabinets provide much more convincing stereo than two channels stuffed in one box." MSNBC said, "The Model Two is a terrific sounding radio and could be the basis for a terrific sounding stereo system."

The Model Two carries forth the same tuner technology used in the Model One™, 5:1 ratio analog tuning dial for easy and accurate tuning, and the same inputs and outputs as the Model One table radio, but with several important additions: a mixing input permits audio from your computer to be mixed in with the radio. There is also a dedicated subwoofer output (for the optional matching Model Subwoofer™) and a balance control. The bass ports are located in the rear to accommodate vertical positioning where space is tight.

Like all Tivoli Audio products, the Model Two AM/FM stereo table radio is compatible with iPod® and other players.

- **Designed by audio legend Henry Kloss**
- **Exceptional high-fidelity stereo**
- **Large 5:1 ratio analog tuning dial**
- Pulls in more radio stations
- 2 x 3" full range, long-throw drivers
- Furniture-grade wood cabinet
- Operates on AC or 12V DC
- Easy to use

Dimensions: 4.5"H x 8.375"W x 5.25"D

Weight: 8.0 lbs.

Available in Cherry/Metallic Taupe and Black Ash/Silver.

Black Ash/Silver
