

## Model CD™ Slot-Loading CD Player

### Hear how good your CDs can sound.

Team the sleek, minimalist Model CD with the Model Two or Three or any quality audio system and be amazed at how good CDs can sound. With its front-loading design and compact size, it is less intrusive than bulkier tray and top loading machines making it the ideal solution where space is tight!

Like all Tivoli products, it is so simple to use. The front panel features a large, easy to read display with primary control for play and track selection. There's also a credit card sized remote control with added advanced track and play features so that favourite tunes can be selected without moving from the armchair. A truly relaxing experience!

Like the Model radios, the 12VDC input make the Model CD the perfect audio solution in a caravan, or boat, or indeed anywhere where a 12V battery is available.

**Model CD™ Slot-Loading CD Player**  
Dimension: 21cm H x 11cm W x 15cm D

The Model CD™ Slot-Loading CD player is available in these color/finishes:

Metallic Taupe/Cherry

Silver/Black

Beige/Walnut

Silver/White

Silver/Cherry

## Model Subwoofer™ Powered Subwoofer

### Pump up the bass.

For the discerning listener who demands that little bit more oomph from their sound system, the Model Subwoofer is the answer. Partnered with Model Two or Three, the Model Subwoofer extends the bass response by a further half-octave.

The Model Subwoofer 5" bass driver, 20 watt internal amplifiers, front ported designs and wood cabinet all enhance its musical capabilities.

Unusually, it has an Auto On/Standby circuit, allowing the unit to be left permanently on as it will switch into sleep mode if not used over a period of time but will activate as soon as a signal is detected.

Whilst it can be placed out of sight on the floor, or wherever convenient, its wood cabinet design complements the Model Two and the Model Three. In short, it looks so good, it should be on display!
