

# Music System

Digital AM/FM/CD Hi-Fi System

**You've seen other systems like this. But none to equal it.**

We use handcrafted real wood where others are content with plastic. The Tivoli Audio® Music System – like all our products – incorporates one of the finest tuners available at any price. It is simple to use but sophisticated inside. “The Tivoli Audio Music System is exactly what an all-in-one system should be.” (*WIRED – Editors Pick, Best of Test*)

The Music System delivers full and expansive stereo sound – including a SpacePhase™ wide mode – from two integrated speakers and a down-firing, magnetically shielded, powered subwoofer. A self-adjusting lighted display provides the time and audio track information. “A CD player and radio with iPod capabilities in one sleek package – nothing looks better or sounds better than the Tivoli Audio Music System.” (*GQ – Best Stuff of the Year*)

Like all Tivoli Audio products, the Music System stereo is compatible with iPod® and other players.

- High fidelity stereo sound
- SpacePhase™ equalizer for an expanded soundstage
