

PAL® Radio in Chrome

## PAL® Chrome

### Inner beauty shines through.

Tivoli Audio has developed another stylish piece to add to its collection of much loved radios. The chrome fronted PAL, with its sleek black sides is this seasons accessory for the ultra modern bachelor pad.

Not only does this radio have stunning good looks, allowing it to blend effortlessly into a kitchen with cool chrome surfaces or (since it is water resistant) a bathroom accessorized with chrome, it also has impeccable sound quality. Its large retro dial makes it easy to scroll from station to station to fit the mood – whether waking up to The Today Programme on Radio 4 or cooking a gourmet hamburger to Johnny Vaughn's 'Fighting Talk' on Radio 5 Live, with the Tivoli Audio PAL the reception is crystal clear.

The portable PAL weighs just 2lbs and works all over the world, making it an ideal travel radio. Once the battery is fully charged it lasts up to 20 hours and can act as a speaker for an MP3, iPod, computer or personal CD player.
