

# PAL™

Portable Audio Laboratory®

## Everyone needs a PAL!

The Henry Kloss Portable Audio Laboratory's treated 2.5" magnetically shielded driver and rubberized cabinet are weather resistant, so your PAL can keep you company by the pool or the patio. And its environmentally-friendly rechargeable Nickel Metal Hydride battery pack has no memory and fully charges in about 3 hours, providing many hours of cordless playback\*. The green LED serves as both a power and battery status indicator. There is an auxiliary input to connect a CD/MP3 player, a stereo headphone output, built-in AM antenna and telescoping FM antenna. Perhaps most amazing of all is its expansive sound which must be heard to be believed! NiMH battery pack and AC adapter included.

With the PAL, we've set a new standard in portable audio: hi-fidelity sound, great reception, compact design, and an affordable price. Offered in a profusion of fun colors, your new PAL is sure to be the life of the party. Can't decide which color to buy? Why not collect them all? After all, you can never have too many PALs!

Like all Tivoli Audio products, the PAL Portable Audio Laboratory is compatible with iPod® and other players.

\* Playback time varies depending on volume level.
