

RadioWorks™

AM/FM/CD Hi-Fi System

The epitome of component systems.

RadioWorks® hi-fi system, our paragon audio system, combines the finest Tivoli Audio® home stereo components.

The heart of the combination is the Model Two™ stereo table radio, offering features that have made Tivoli Audio an industry icon. Furniture-grade wood cabinets are home to heavy-magnet, long-throw drivers allied to a frequency-contouring circuit for accurate tonal balance. Delivering unsurpassed clarity on closely spaced FM stations, our discrete-component tuner is controlled by our signature 5:1 analog tuning knob for easy and accurate reception of even low-watt stations.

To the Model Two stereo radio core of the system, RadioWorks adds two components. The Model CD™ player features a user-friendly, front-loading slot design and a credit-card sized remote. The Model Subwoofer™ speaker extends bass response by a half-octave, using a 20-watt internal amplifier and 5 ¼", front-ported driver. "We love the basic Model Two AM/FM radio, with its classy wood cabinetry, separate stereo speaker and extraordinarily precise AM/FM tuner. Expanding it to a full-fledged microsystem by bundling external CD player and subwoofer modules maintains the high quality audio standard." (Rolling Stone)

As with all Tivoli Audio products, the RadioWorks paragon audio system is compatible with iPod and other players.

- **Designed by Tom DeVesto**
- **AM/FM tuner by audio legend Henry Kloss**
- **Exceptional hi-fidelity stereo**
- Large 5:1 ratio analog tuning dial
- 3" full range magnetically-shielded speaker
