

High-Fidelity Stereo System for iPod®

The iPod® player for radio lovers.

Wake in the morning to music you select from your iPod*. Tune in to your favorite radio stations. Control your music from across the room. The Tivoli Audio® iYiYi™ high-fidelity stereo system for iPod is the definitive high-end home iPod player. “With a digital AM/FM radio, built-in alarm/digital clock, credit card-sized remote control, blue backlit LCD display, and Radio Data System (RDS) support, iYiYi offers the ultimate listening experience.” (*TechEBlog*)

The iYiYi system connects and charges all dockable iPods. Its precise digital tuner includes five FM and five AM station preset buttons, a ‘seek’ function, and built-in AM and FM antennas. The backlit display provides information on station tuning, the time, and the 20-minute sleep timer indicator. It all adds up to the ultimate home audio system for anyone looking for iPod and radio control in one unit. “Yes, the iYiYi has a funny name, but, like a foreign supermodel, also has the looks to back it up.” (*Uncrate*)

*iPod Not Included
